

LISTING OF SPECIES TESTED

Bacteria

Achromobacter anitratus	Enterobacteriaceae Hafnia	Pseudomonas tolaasii
Acinetobacter spp	Enterobacteriaceae Klebsiella	Pyocyaneus
Actinobacillus pleuropneumoniae	Enterobacteriaceae Kluvera	Salmonella anatum
Aeromonas hydrophila	Enterobacteriaceae Serratia	Salmonella dublin
Aeromonas salmonicida	Enterococcus faecium	Salmonella durban
Agrobacterium tumefaciens	Erwinia carotovora	Salmonella livingstone
Alcaligenes faecalis	Escherichia coli	Salmonella newbrunswick
Bacillus anthracis	Escherichia tarda	Salmonella newport
Bacillus cereus	Flavobacterium branchiophilum	Salmonella oranienburg
Bacillus diptheria	Flavobacterium columnaris	Salmonella paratyphi B
Bacillus dysentery	Flavobacterium haematocrits	Salmonella pullorum
Bacillus flavothermus	Flexibacter maritimus	Salmonella rostock
Bacillus mesentericus	Geotrichum candidum	Salmonella senftenberg
Bacillus subtilis spores	Isaria farinose	Salmonella thompson
Bacillus subtilis	Klebsiella oxytoca	Salmonella typhimurium
Bacillus thuringiensis	Klebsiella pneumoniae	Sarcina lutea
Bacterium enteritidis Gaertner	Lactonacillus spp.	Serratia marcescens
Bacterium paratyphi	Lawsonia intracellularis	Serratia liquefaciens
Bacterium rhusopathia	Legionella pneumophila	Shigella boydii
Bacterium septicaemiae	Listeria monocytogenes	Shigella sonnei
haermorigael	Micrococcus avium	Spicaria pricina
Bacterium typhi gallinarum	Micrococcus citreus	Staphylococcus aureus
Brachyspira intermedia	Micrococcus pyogenes	Staphylococcus aureus haemolyticus
Brachyspira pilosicoli	Moraxella spp	Staphylococcus bag
Brucella abortus bang	Mycobacterium avium	Staphylococcus epidermidis
Brucella suis	Mycobacterium lacticola	Staphylococ. paratyphosa B
Campylobacter spp. Jejuni	Mycobacterium minetti	Staphylococcus pyogenes
Carnobacterium piscicola	Mycobacterium pellegrino	Streptococcus agalactiae
Citrobacter spp.	Mycobacterium phlei	Streptococcus faecalis
Clavibacter michiganese	Mycobacterium piscium	Streptococcus faecium
Clostridium welchii	Mycobacterium smegmatis	Streptococcus lactis Blaser Sveitsi
Clostridium sporogenes	Mycobacterium vole bacillus	Streptococcus suis
Clostridium bifermentas	Pasteurella	Tail rot disease
Clostridium tertium	Pediococcus cerevisiae	Vibrio alginoliticus
Clostridium histolyticum	Proteus mirabilis	Vibrio anguillarum
Clostridium caloritolerans	Proteus vulgaris	Vibrio cholerae
Corynebacteriummichiganese	Providencia alcalifaciens	Vibrio harveyi
Corynebacterium spp.	Pseudomonas aeruginosa	Vibrio parahaemolyticus
Enterobacter aerogenes	Pseudomonas fluorescens	Vibrio salmonicida
Enterobacter cloacae	Pseudomonas fragi	Vibrio vulnificus
Enterobacteriaceae Citrobacter	Pseudomonas putida	Yersinia enterocolitica
	Pseudomonas putrefaciens	Yersinia pseudo-tuberculosis
	Pseudomonas pyocyanea	Yersinia ruckerii
	Pseudomonas solanacearum	Xanthomonas hyacinthi

Viruses

Adenovirus
African swine fever virus
Aujeszky Disease virus
Avian influenza A virus
Avian reovirus
Canine parvovirus
Celovirus
Classical swine fever virus
Corona virus
Coxsackie virus
Diphtheria virus
Ektromelie virus
Encephalomyocarditis virus
Enteric cytop. bovine orphan virus (ECBO)
European swine fever virus
Foot and Mouth Disease virus
Fowl plague virus
Fowl pox virus
Gumboro Disease virus
Hepatitis A virus
Hepatitis B virus
Hepatitis contagiosa canine virus
Herpes virus
Human Immuno-Deficiency virus (HIV)
Human rotavirus
Infectious bronchitis virus
Infectious bursitis virus
Infectious pancreatic necrosis
Infectious salmon anaemia (ISA) virus
Influenza virus
Irido virus (ASFV)
Myxomatosis virus
New Castle Disease virus (NCD)
Nuclear polyhedron virus
Orthopox commune virus (vaccinia)
Parainfluenza virus
Paramyxo virus
Picorna virus
Poliovirus
Porcine parvovirus
Pox virus
Pseudo Bird Pest virus
Rabies virus (fixed)
Reovirus
Retro virus
Rhino pneumonic virus
South African Pest virus
Swine fever virus
Systematic ectodermal and mesodermal
baculo virus (SEMBV)
Teschén virus
Toga virus
Vaccinia virus
Vesicular Swine Disease virus
White spot disease virus (SMBV)

Fungi

Aspergillus amstellodami
Aspergillus flavus
Aspergillus fumigatus
Aspergillus gr. glaucus
Aspergillus niger
Aspergillus oryzae
Aspergillus ochraceus
Aspergillus versicolor
Byssochlamys nivea
Chaetomium globosum
Cladosporium herbarum
Cladosporium cladosporoides
Entomophthora destruens
Entomophthora thaxteriana
Entomophthora virulenta
Epidermophyton floccosum
Fusarium moniliforme
Geotrichum candidum
Microsporum canis
Microsporum gypseum
Myrothecium verrucaria
Oöspora lactis
Paecilomyces variotii
Penicilliumcyclopium
Penicillium funiculosum
Penicillium granulatum
Penicillium roqueforti
Penicillium verrucosum
Saprolegnia parasitica
Tilletia caries
Trichoderma viride
Trichophyton equinum
Trichophyton mentagrophytes
Wallema ichthyophaga

Algae

Chlorella vulgaris
Skeletonema sp.
Tetraselmis sp.

Yeasts

Candida albicans
Cryptococcus spp
Saccharomyces cerevisiae
Saccharomyces diastaticus

Parasites

Epistylis
Gill trematoda
Gyrodactylus salaris
Ichtyobodo necator
Ichtyophthirius multifiliis
Labyrinthuloides haliotides
(Labyronthomorpha)
Neoparamoeba pemaquidensis
